Speculators Seem Suspicious Now Rather Than Confident.

TRADING DWINDLES TO LOW EBB

Brisk Advance in Railroads Docsn't Have Expected Result of Awakening a Greater Activity, but Quite Otherwise.

NEW YORK, Nov. 17.—Trading in stocks dwindled to a low ebb today and the duliness was progressive. This was regarded as a significant indication following the bear pressure on stocks and was regarded as an indication that there was little inclination to embark in speculative adventures as yet. The awakening from a long dormant state of stocks of a number of less important railroad companies and their brisk advance so far from having an encouraging effect on the buying of stocks seemed to awaken suspicion. The notoriety of the existence of speculative pools in many of these stocks which have a connecting common interest caused many rumors of developments in their affairs to be skeptically regarded. The small volume of capital issues of corporations of this class and the narrow limits of the circle within which they are held makes them specially available for manipulation. The rise in the day which was attributed to this light incursion by stock speculation in minor pools showed the dispayer with which the de per gal, \$1.5: atsundard, per can, 276. BERLIN, Nov. 17.—Stocks on the bourse continued dull. Favorable reports regard-

ing the steel syndicate negotiations raised the price of iron shares.

PARIS, Nov. 17.- Business, on the bourse opened hesitatingly and there was little activity during the day. At the close the market was heavy. Private rate of discount was 2 13-16 per cent.

LONDON, Nov. 17.- Supplies of money were more abundant in the market today and rates were easier. Discounts were steadler on a better supply of bills, a strong American demand for gold and rumors of a rise in the Bank of Engiand's rate on Thursday next.

Business on the Stock exchange was duli and uninteresting. Consols hardened a fraction. Home rails were depressed on rumors of the impending issues of new capital. Americans opened steady and slightly abova parity. Prices were often nominal. They eased afterwards owing to the absence of support, but improved later and closed firm. The feature of foreigners was the firmness of Argentines on continental support. Rio Tintos were firm. Consols advanced at the close on the general outlook and less likelihood of an advance in the bank rate.

HOGS—There was a fairly liberal run of hogs here this morning and prices continued their downward course at all points. The decline here amounted to fully \$6419c, but trading was fairly active so that all the early arrivals were disposed of in good season. Heavy hogs sold argely from \$4.40 to \$4.45, with a few common loads below \$4.40. Medium weight hogs sold from \$4.45 to \$4.50 and lights from that up to \$4.52 and lights from that up to \$4.52 and lights from that up to \$4.50 and lights from the trains were late in arriving, so the market did not come to an early close.

When the late trains did arrive packers took hold very freely and bought the hogs at stronger prices than they paid early. All of them seemed to want a few loads and as a result trading was active. As high as \$4.65 and \$4.676 was paid for light hogs on the latter end of the market. Rep-

SHEEP—There was a moderate run of sheep and lambs here this morning, and in spite of the fact that Chicago was quoted much lower prices here held fully steady on all desirable grades. Packers seemed to be anxious for fresh supplies, and as there were not very many killers included in the offerings trading was brisk and prices fully steady with yesterday. This was true of both sheep and lambs.

There was also a good inquiry for feeders, and in fact the demand was fully as large as the supply, and everything changed hands in good season at steady prices. Common kinds of course were more or less neglected the same as usual, but still they sold to as good advantage as they did yesterday.
